

SPIRAL Scavenger Hunt

DATA-BASED INDIVIDUALIZATION

Check off each activity as you complete it!

Work to complete 4 of the 7 activities.

Follow the QR code or go to mathspiral.com to view the Additional Resources on the SPIRAL website.

Review Resources tabs

Identify the core program or strategy you are using at your school. Is it evidence-based?

Write a specific, measurable goal for one student. Choose how you will measure the student's progress.

Analyze student errors by looking at student work. What errors are students making?

Plan an instructional adaptation and describe how instruction is becoming more intensive, not just different.

Complete the free video-based National Center on Intensive Intervention (NCII) math course about best practices for mathematics intervention.
