Tackling Directive  
Word Problems

Download the Directive Sorting Cards for your grade level and describe how you could use them in your classroom.

Which comparison is true?

- A  $68 > 649$
- B  $571 > 582$
- C  $730 < 806$
- D  $709 < 692$

Prepare one modeled example that explicitly demonstrates the steps for solving a directive word problem in an upcoming lesson.

Plan how you will incorporate vocabulary instruction and multiple representations when teaching students to solve directive word problems.
